Subject Index

- Acid etching 309
- exposure, frequency, duration 9
- production 251
- resistance 460
- tolerance, *Streptococcus downei* 94
Actinomyces 137
Adhesion, streptococci 335
Aluminum 401
Amalgam restorations 240
Amino acids 99
Amylase 468
Antimicrobial agents 421, 429
Antiseptics 335
Approximal caries 55
- -, computer diagnosis 55
- -, prophylaxis 394
- plaque pH 116
Artificial saliva 28

Bovine enamel 1
Buffer effect 468

Calcium 468
- carbonate 272
- fluoride 1, 28, 447
Calculus 150
Cancer 388
Caries 132, 150, 161, 409, 477
- -, adults 301
- development, adolescence 297
- diagnosis 169, 368
- -, laboratory 373
- -, radiographic 55
- -, experimental 156
- microbiology 409
- prevalence 176
- -, decline 378
- prevention 1, 132, 251
- progression 297
Cariogenic challenge 246
Chewing gum 48
Chlorhexidine 35, 262, 267, 435
- gel 394
- varnish 267
Collagen 21
Colour 233
Controlled-release devices, fluoride output 28

Demineralization 87, 277
Demineralization/remineralization behaviour 9

Dental enamel, hardness 227
- erosion 227
- plaque 146, 267
- - reduction, oolong tea extract 146
Dentin 14, 21, 87, 240, 315
- sclerosis 14
Diet 468
Digital radiography 363
Dip slide tests 123

Economic assessment, 7-year follow-up study on proximal caries incidence 59
Elementary schoolchildren 378
Enamel 9, 353
- caries 284
- defects 383
- demineralization 48
- -, intraoral 291
- dissolution 401
- remineralization 309
- softening 406
- uptake 401

Fissure 368
- sealants 161
Flossing 394
Fluoridating composites 87
Fluoride 28, 43, 94, 227, 335, 383, 388, 429, 447
- concentration 64
- dose response 277
- profile 83
- release 322, 406
- -, residual effects 246
- toothpaste 455
- uptake 322, 406, 460
- varnish 59, 64
- -, long-term effect 59
Fluoride-releasing devices 284, 441
Fluorosis 455
Food composition, cariogenic potential 106
- entrapment 291
Foods 150
Free arginine 99

Genetics 69
Gingival overhangings 301
Glass ionomer cements 322
- - specimens 406
Glucose 251
Glycolysis 329

Hydrofluoric acid 161
Hydroxyapatite 329
Hypothiocyanite 429

Immunoglobulin A 468
- G 468
Immunohistological stain 137
Inbred rat strains, genetic effect 156
In situ single-section caries model, validation 277
Interobserver variations 169, 368
In vitro antiplaque model 35
Iodide penetrability 291

Lactobacilli 123, 468
Lactoperoxidase 421
Laser irradiation, pits and fissures 460
Lectins 257
Lithium 342
Lysozyme 421

Maltase 291
Mature unerupted enamel 83
Microbial vitality 267
Microdensitometry 353
Microelectrode 116
Microflora 233
Microscopic counts, selected bacteria 137
Molecular biology 69
Mouthwash 43
Mucin 257, 416
Mutans streptococci 48, 123, 137, 146, 161, 262, 435, 468
- -, Thailand 161

NaF dentifrice 127, 277
Non-F dentifrice 309

Oligosaccharide degradation 257
Oral clearance, salivary sucrose 348
- fluoride reservoir 43
- hygiene 132, 297, 378, 477
- microflora 99
- streptococci 257, 262, 416

Paediatric dentistry 132
Pellicle formation 309
Periodontal state 301
Peroxidases 429
pH 251

- Plaque 272
 - bacteria 106
 - ecology 251
 - pH 48, 272, 291
 - retention 301
- Plaque-covered indwelling electrodes 116
- Plasma 455
- Polyphenol 146
- Potassium laurate 94
- Primary root caries 233
- Protein malnutrition 99
- Proteolytic degradation 21
- Proximal caries incidence 59

- Radiography, oral 169, 363, 373
- Radiopacity 240
- Radiotherapy 388
- Rat caries model, food composition 106
- Recurrent decay 409
- Remineralization 246, 277, 284, 441
- Restorations, margins 435
- Root caries 14, 301, 315, 441

- Saccharose 348
- Saliva 99, 123, 127, 342, 348, 388, 421, 429, 447
 - , flow rate 468
- Salivary clearance 43, 150
 - parameters 106
- Secondary caries 240
- Socio-economic status 176
- Sorbitol 48, 251
- Standard buffer solutions 116
 - - -, topical application 116
- Stannous fluoride 435
- Starch 291
- Streptococcus downei* 94
 - *mutans* 35, 156, 251, 291, 329, 335, 421
 - *sanguis* 335
- Submandibular gland 99
- Sugars 150, 291, 348, 477
- Sulphatase 416
- Surface organic material 83

- Thymol 267
- Toothbrushing 127, 309, 455
- Toothpastes 272
- Topical fluoride 1
- Transversal microradiography 353
- Triclosan 272

- Water rinsing 127
- Wavelength-independent microradiography 87
- White spots 132
